Delivered by:

BLUE RIDGE
CANINE ACADEMY

A Canine
First Aid Course
for Dog Owners
and Industry
Professionals

Be prepared...
To show how much you care!

**Be Prepared To Save Your
Dogs Life... They Would For You.**

"Immediately suspicious that *Chester*, my 8 year old much cherished Springer, had been the potential victim of a snake (Adder) bite, Stuart Kemp of Blue Ridge Academy, leapt into action as his training kicked into autopilot. After administering emergency first aid,

Chester was carried over a mile, with five other dogs in tow, to safety and then evacuated to the nearest vet for further emergency treatment. Admitted to veterinary hospital it was touch and go for 48 hours, but *Chester* finally recovered after 3 days of treatment. Without Stuart's quick thinking and K9 first aid training the outcome may well have been very different indeed. *Chester* is now back with me and my other two dogs *Flint* and *Mostyn*, where he belongs!"

Miss R. Brown and Chester,
Vale Of Glamorgan,
South Wales.

**The Blue Ridge Canine Academy
Canine First Aid Course** prepares you to take quick and confident action in an emergency, and focuses on the most common dog-related accidents.

You will be trained by a Professional Blue Ridge Canine Academy Accredited Instructor.
